

Jesús Eduardo Uriarte Avelar

M. SC. ARTIFICIAL INTELLIGENCE
COMPUTER SYSTEMS ENGINEER

HARD SKILLS

- API Development: RESTful, SOAP, Webservices, Microservices
- Frameworks: Ionic, Angular, Vue.js, React (basic), .NET Core, Next.js
- Programming Languages: C, C++, C#, Java, Python, HTML, CSS, JavaScript, TypeScript, SQL
- Databases: MySQL, SQL Server, OracleDB, Firebase
- Technologies & Tools: Git, IBM API Connect, XAMPP, Bootstrap
- Methodologies: Agile, SCRUM, Waterfall
- Data Science: Business Analytics, Business Intelligence, Statistics, Machine Learning, Productization, Tableau, AWS

SOFT SKILLS

I possess strong emotional intelligence skills, including self-awareness, self-regulation, and social awareness. I have experience in leadership, negotiation, strategic thinking, and effective communication. I work collaboratively, manage conflicts, and promote high-performance teams. I handle time management, focus, and decision-making efficiently. I apply creativity and innovation in problem-solving. Additionally, I foster psychological safety, resilience, and adapt with agility to change and complex environments.

EDUCATION

- **Master's Degree in Artificial Intelligence**
International University of La Rioja (UNIR) (2024–2025)
- **Computer Systems Engineer**
National Technological Institute of Mexico, Culiacán Campus (2019–2023)
- **Technical Career in Programming**
CBTis 224 (2016–2019)

LANGUAGES

- Spanish: Native
- English: C1/C2 Level
- Portuguese: A1/A2 Level

PROFILE

Fullstack developer with 6+ years of experience and a strong foundation in systems engineering, currently specializing in Artificial Intelligence and Data Science. I focus on building scalable, high-impact solutions that bridge software engineering and intelligent systems.

I thrive in collaborative, fast-paced environments and bring a problem-solving mindset with a strong ability to adapt under pressure. A self-driven learner, I continuously expand my expertise to stay aligned with emerging technologies.

I am motivated by challenging projects where I can apply my technical skills, creativity, and analytical thinking to deliver innovative and efficient solutions.

WORK EXPERIENCE

Technical Consultant

Salud Digna

2026 - Present

Management of main websites across Latin America, handling patient incidents, leading development teams, implementing best practices, and continuous innovation.

SD Analyst - HT - DEVELO

EPAM NEORIS

2024 - 2026

Consulting and analysis of development requests, development of the requested software and creation of APIs in API Connect IBM and other technologies, providing quality solutions to the client.

FullStack Developer - Trainee

NEORIS

2022 - 2024

Web development, ETL's, documented software, API's with management of microservices in order to optimize processes and provide solutions to the client.

Programming Assistant

Valdez Baluarte

2019

Temporary assistant for the development of an application in charge of monitoring delivery trucks, improving customer satisfaction.

Programming technician

Castañeda & Asociados Bienes Raíces

2019 -2020

Development and administration of landing pages, marketing management in social media publications and creation of advertising multimedia content, improving customer traffic.

CERTIFICATIONS

- Cisco® CCNA Routing and Switching: Introduction to Networks
- UNIR Diploma in Soft Skills and Managerial Skills
- MIU Continuing Education Certificate in Cybersecurity

COURSES

- DS4B Your First Week as Data Scientist
- Python programming course
